

REFURBISHING THE PORT ROYAL COMMUNITY BUILDING

It has served us well, now is the time to show our appreciation. The Port Royal Community Building is badly in need of refurbishing and the Friendship Fire Company needs your help to make this happen.

Ground was broken for the building approximately sixty years ago on August 4, 1955, with dedication occurring the following April. During more than a half century, it has stood, and still stands, as a source of pride and service for the town. Few towns the size of Port Royal, have the benefit of such a treasure.

It is likely that almost everyone who has lived in the town since its opening has been in the building on many occasions. If you attended Tuscarora Valley High School in its later years, you may have attended classes in the building, participated as a player or spectator at a basketball game or attended a school reunion there. Also you could have attended a teen dance, a roller skating party, a wedding reception, a civic event or even have voted in the building.

Of special need is a new floor for the Social Room. The current floor is buckling at places and is turning up around the edges. In addition some windows need to be replaced to help reduce energy costs and an increase in the number of parking spaces is planned.

The estimated cost for the total project is \$100,000.
